

PROVENANCE

Our mixers start with our award-winning water. Since 1180, Llanllyr (pronounced “clan-clear”) water has been drawn from the organic fields of Lampeter, West Wales, in the heart of a glacial valley. For over 300 years the same family has organically farmed the land of Llanllyr to protect this wonderfully balanced and natural resource that is replenished by constant rainfall. The result is one of the world’s purest natural spring waters, which forms the foundation of our mixer range.
